## U. S. GOVERNMENT SHOULD RAID RICHES

### Of Multi-Millionaires When They Die

### IS ARGUMENT OF MR. CARNEGIE

**Iron Master Wants Tax So Heavy that the Government Would Share Enormously in Fortunes of the Very Rich When They Die.**

New York, Dec. 15.—August Belmonts position as president of the National Civic Federation on the question of "the income and inheritance tax" was explained by him at considerable length at Thursday's session of the federation's annual meeting. In his opening address Mr. Belmont touched on the same subject and he declared that his remarks had been misinterpreted by the newspapers.

"What I said," said Mr. Belmont, "was that a wise and just method of taxation—and the discussion of that in a proper manner—would be of great good to this country, but that spoliation was quite another matter.

"I do not believe that men as a general proposition can accumulate large fortune dishonestly and improperly. There may be isolated cases if it. The existing laws with regard to wrongdoing are complete and searching enough. These fortunes fastly come through large corporations. That these fortunes are accumulated in an improper manner all over this country and must be reduced in a punitive spirit is what I meant yesterday to deny. That a tax on inheritance should be passed, but it should be done on a view of wise and just taxation, and on some economic grounds was all I meant to convey."

President Belmont then introduced the next speaker, M. E. Ingalls, the chairman of the Cleveland, Cincinnati, Chicago and St. Louis railroad.

William D. Guthrie, a lawyer, of this city, who led the fight in the local courts against an income tax on constitutional grounds, was the next speaker.

He held that there must, under the American institutions, be equality of taxation, declaring that taxation goes hand in hand with representation.

Andrew Carnegie, who followed Mr. Guthrie, said that he was in hearty accord with what had been said by the previous speakers. He thought it would be a great mistake for a man who wants to borrow $1,000 from his bank in a time of personal financial stress to be compelled to explain all his private business to another man, who is perhaps also a bank director.

"I think an income tax would penetrate business to the core," said Mr. Carnegie. "I think this country would never regret anything so much as to impose such a tax. I differ with the president strongly on the subject of the income tax. but I am in a peculiar position on the inheritance tax, advocating that as something like getting a better distribution of wealth. The subject of wealth distribution will not down."

Mr. Carnegie said he believed inasmuch as as the wealth properly belonged to the community, the latter on the death of the possessor should acquire a great portion of the wealth, having had a large part to do with the development.

"Our country fails in its duty," said Mr. Carnegie, "if it does not exact a share, a termendous share of the estate of the enormously wealthy man on his death. The money belongs to the community. But do not mistake me. I do not advocate the making of a man a pauper, or the pauperizing of his children. But it is not the millionaire who made the wealth. He did not make the ore, or the coal, or the gold that he dug out of the ground. The Montana copper mine owner did not make his wealth. It belongs in the abstract to the people who use it and the uses which make it valuable.

"I am with the president, then, to tax heavily by graduated taxaltion every man who dies leaving behind him his millions, for I think that excessive wealth left to a child is an injury to the child."

## CRACK SAFES AND BANKS.

**Robbers Gather All the Cash and Then Ride Away with Booty.**

Muskogee, I. T., Dec. 15.—News has just reached this place of the robbery of the bank of Morris at Morris, I. T., 30 miles west of Muscogee. The safe in the bank was opened and all the money in the bank at the time, $3,000, secured. The robbers escaped.

They cut the telephone line before leaving Morris and had planned to make a desperate fight if necessary. Boxes were piled in front and behind the bank for a blind, and cartridges were spread out for quick use.

**Oklahoma Bank Robbed.**

Shawnee, Okla., Dec. 15.—Robbers at Asher, a small town in the southern part of Pottowatomie county, robbed the Asher state bank. From the best obtainable information there were five men in the party as was stated by a young boy who was out after a physician when the robbers caught him and put him in a freight car, nailing him in to secure him, as they thought, while they did their work. The safe was completely destroyed, the building was almost totally wrecked and the adjoining building was damaged by pieces of the safe being blown through in several places. The loss is between $2,500 and $3,000.

There are no clews as to who the parties were, and they made good their escape.

## LONG SENTENCE FOR F. CARR.

**Highwayman Found Guilty of Robbery and Given 15 Years.**

Atlanta, Dec. 15.—Frank Carr, a young white man, was given a sentence of 15 years by Judge Roan for holding up and robbing D. A. McNabb, an old man, 65 years old, at the corner of strong and D'Alvigny streets, on the night of Oct. 20.

The defense tried to prove an alibi for Carr, having a witness to state that he was in a saloon on Marietta street, when the crime was committed, but as no definite statement of the time Carr spent in the place could be proven, this was ineffectual.

Plain Clothes Officer Starnes, of the city police, arrested Carr in a pawn shop, as he was arranging for a loan on a watchchain, afterwards identified by Mr. McNabb as the one taken from him along with his watch and some money. He also had with him a pocket testament which the highwayman refused to take.

Carr testified that a stranger who appeared to be under the influence of whisky, asked him to pawn the watch at a certain shop as he did not want to do it himself on account of having had a difficulty with the pawn broker. When arrested, Carr could not produce the man who he said gave him the chain to pawn. On his person was found a ticket for the watch.

A man named Weaver, who was jointly indicted with Carr charged with being an accomplice in the robbery, has not been tried.

**Committed Suicide on Wedding Eve.**

New Orleans, La., Dec. 15.—After writing across the back of his marriage license the following: "I am heavily in debt, and cannot lead you into misfortune, and both of us will die together." Louis Thomas shot and probably fatally wounded his bride-to-be, Harriet Coulter. He then killed himself. The scene of the tragedy was a plantation near Adelaide, La., and the news did not reach here till today. The young couple had rented their house, and had been to a railorad station to get furniture which had been ordered for it. They were returning from the station when the shooting occurred.

**Released on Shooting Charge.**

Savannah, Ga., Dec. 15.—Mrs. J. R. Clifton, who recently shot her husband, a street car conductor, because he staid too long at an oyster roast, has been released on bond She is clerking in a Broughton street establishment. Clifton is out of the hospital. Mrs. Clifton has not been indicted. It is said that if the case against her is ever tried that there may be some unusual and unexpected domestic disclosures that will excite a great deal of interest not only in Savannah, but in several small towns along the line of the Central railway.

## HARDY IS JAILED; PROTESTS INNOCENCE

### Charged With Murder of Father In Law.

### WAS ARRESTED NEAR CHIPLEY

**Evidence Is Strong Against Hardy, and Large Reward Was Offered for His Arrest—Captured by Man Who Married His Cousin.**

Columbus, Ga., Dec. 15.—Charles Hardy was arrested three miles west of Chipley, Ga., at th home of Henry Kimbrough Thursday on the charge of murdering his father-in-law Charles H. Brooks, whose assassination a week ago caused such a great sensation in that section.

Brooks was shot while seated before a fire at his home, his slayer standing on the outside and firing through the window pane.

The coroner's jury, which has been investigating the case, returned a verdict last night, holding that the shot was fired by Hardy. When he learned of the verdict Hardy left Chipley hurriedly. A posse was formed and started in pursuit of him and he was captured a few hours later. The capture was made by Henry Kimbrough, whose wife is a first cousin of Hardy. There were rewards for Hardy's arrest aggregating several hundred dollars, and one theory is that Kimbrough surrendered him in order that this fund could be used in defraying the expenses of the trial. This is simply conjecture, but if it is true the situation is a most curious one. The governor offered five hundred dolars reward, which was supplemented by the people of Chipley.

On account of the excited conditions at Chipley, Hardy was carried to the Troup county all at LaGrange by Sheriff Huling. Hardy was later brought to Columbus.

It is reported that Hardy, who is a farmer, was in sore financial straits. His father-in-law is well to do.

A day or two before the killing, Hardy went to the county seat, at Hamilton, and examined the property records.

If the coroner's verdict should be substantiated the only motive that has been suggested for Hardy's deed was that by the death of his father-in-law his (Hardy's) wife could come into possession of her share of the estate.

**Teacher Convicted of Whipping Boy.**

Bainbridge, Ga., Dec. 15.—After a hotly contested trial here in the city court of Bainbridge, Professor R. B. Hartzog, one of the teachers in the Bainbridge public schools, was convicted by a jury on a charge of assault and battery in administering a whipping to the 10-year-old son of Captain McGruder, a patron of the school. The defendant pleaded not guilty and claimed that the whipping administered was of the usual character given by teachers to pupils for infractions of the rules of school. The boy's father, who prosecuted the case, seemed to convince the jury that in his case whiping was too severe and amounted in law to assault and battery. A small fine was imposed and paid.

**Two Are Killed by Gas.**

New York, Dec. 15.—A man 40 years of age, believed to be Rev. C. S. Quinn, paster of St. Agnes church at Atlantic Highlands, N. J., and a young woman, thought to be Miss B. Kiley, also of the same place were found dead in a room on the top floor of an East Eighteenth street boarding house Thursday. The room was filled with gas, which had escaped from a partly opened jet. The couple had been at the house since Wednesday evening. The man engaged the room, saying it was for a married couple. He remarked that he was out of work.

**McCabe's Condition Improved.**

New York, Dec. 15.—The condition of Bishop McCabe, of Philadelphia, who is in the New York hospital, suffering from apoplexy, was said at the hospital to be Friday slightly improved.

## SAY SHARPTON IS INNOCENT.

**Sensational Turn Taken in an Augusta Case.**

Augusta, Ga., Dec. 15.—The case of J. M. Sharpton, the prominent farmer who is now under conviction for shooting and blinding Walter McDonald, the child of a neighbor, has been sensationally reopened by the filing of affidavits and warrants alleging that Forrest Gay, a 15-year-old son of County Constable Robert Gay, committed the crime and that Sharpton, consequently is innocent.

This new turn of the case was entirely unexpected and is being faced by the court officials with a surprise that is somewhat akin to consternation.

The history of the original case was more than ordinarily sensational. One night last spring Walter McDonald, with a companion named Pearson, went to the watermelon patch of J. M. Sharpton, a neighbor, to steal a watermelon. While in the patch, McDonald was struck full in the face by a load of shot from a shotgun, at short range, and blinded forever. The boy was conscious and not in much pain that night after his wounds were dressed, and he declared that J. M. Sharpton did the shootig.

Young Pearson was locked up, and corroborated McDonald's statement, both boys stating they had plainly recognized Sharpton before the shot was fired.

The next morning Sharpton was arrested, and immediately denied all knowledge of the crime. He was tried at the first term of the superior court, when a complicated network of circumstantial evidence bore out the statement of the two boys, and Sharpton was convicted and sentenced, the judge, by implication, declaring his own personal belief that Sharpton was certainly guilty.

Now five affidavits are suddenly produced, signed by white citizens of the county, to the effect that young Forrest Gay, at sundry and different times, confessed that he, and not Sharpton, shot the McDonald boy. A younger brother, Aldean Gay, is also implicated. The warrants have been served, and the boys put under bond.

Relatives and friends of the boys declare the whole thing an effort on the part of attorneys to divert suspicion from Sharpton, for whom a motion for a new trial has been asked. The court house officials are reticent, and refuse to give any statement regarding their views in the premises.

**Burglars Work at Sewanee.**

Sewanee, Ga., Dec. 15.—A daring robbery was committed here when John B. Brogdon's store was robbed. The entrance was effected by prizing open a side door, and it is thought to have been done by a white man and a negro, who were about town. About $100 worth of goods were taken. After leaving the store the parties were traced in the direction of Atlanta, and the police department has been notified.

**Two Freights in Collision.**

Athens, Ga., Dec. 15.—Two freight trains on the Seaboard Air Line collided at Carlton, a few miles from this city. The six rear cars of one freight were demolished, but the conductor and crew were not in them at the time. Engineer Pinkston and Fireman Bradley both jumped. Pinkston was badly bruised. Bradley's head struck a crosstie and his skull was fractured. He died later.

**Eight Hour Day for Miners.**

Deadwood, S. D., Dec. 15.—Superintendent Crier, of the Homestead mine, has announced that the company has granted the employees an eight-hour day. The underground workers had demanded this, but it was concluded to give it to all employees. They also will be allowed half company time in coming and going to work. The new regulations takes effect Saturday.

**Colonel Desperado Captured.**

Lake Charles, La., Dec. 15.—A posse captured Lee Coleman, accused of killing Deputy Sheriff Shoemaker, on October 17, last. Coleman had sworn never to be captured alive, but the posse found him lying in a tent in a swamp so crippled with rheumatism that he could not defend himself, and did not attempt to take his own life.

# PROSPECTS GOOD FOR THE BIG STOCK SHOW

## Interesting Meeting Was Held at Council Chamber Friday Night.

### WILL INVITE COUNTRY FOLKS

### Big Entertainment Will be Held in Gainesville Some Time During March, When Country People Will Have Proposition Explained to Them.

An enthusiastic meeting of citizens of Gainesville and the county who are interested in the organization of county stock show was held at the Council Chamber Friday night and the meeting was well attended, with considerable interst manifested

The meeting was called to order by Mayor W.R. Thomas, who explained its purpose. There were talks by prominent people along the line of organizing a regular annual stock show, which resulted in a motion, which was carried, that the chair appoint a committee of seven to formulate plans of organization and draft plans for suitable buildings, etc., for the show, which is proposed to make an annual institution The chairman will make the appointments in a day or two.

The question of interesting the country people, many of whom own valuable stock, was taken up. There were talks made by Jesse R. Emerson, Dr. J. F. McKinstry, Jr., W. B. Taylor and others, and the general impression was that an entertainment of some sort should be given in Gainesville, in order to attract the people here, when the matter will be fully explained. Upon motion a committee comprising W. D. Dickinson, Dr. J. F. McKinstry, Jr., J. R. Emerson and W. G. Richardson, was appointed to arrange for an entertainment, which will probably be a big barbecue during the latter part of the present month.

The people are thoroughly awake as to the necessity of a county show, and the benefit which will be derived, which will no doubt result in the successful carrying out of the plan.

## CARD FROM MRS. PALMER.

### She Extends Thanks to the Ladies Who Sent Exhibits to the Fair.

To the Ladies: I desire through the columns of The Sun to thank the ladies of the county for their interest and efforts to make the exhibit of woman's work a success at the late State Fair.

Realizing the fact that many of the ladies of the county did not attend the fair, yet have an abiding interest in it, and are desirous of knowing how our work compared with the exhibits of our sisters of the other counties of the State, I assure all who contributed to our success at the fair, that you may justly feel proud.

It is true that there was on exhibition from other counties meritorious work of the ladies. Had there not been, our victory would be a victory of less lustre.

From the many premiums received by the ladies of Alachua county, especially of Gainesville, we may fairly conclude that the judges of woman's work at the fair recognized your superior work and the merit of the exhibits; and permit me to say to any and all who were not awarded premiums, that your work was certainly worthy of a place there, and was greatly admired by the many, of whom a large percentage were competent to judge of the excellence of the handiwork of the women of our fair Florida.

I heartily congratulate, and am indeed thankful for the effort on the part of the ladies of Alachua county, in making so creditable a display, which means success. Respectfully,

MRS. W. H. PALMER.

### Captain Denham Here.

Among the prominent visitors to Gainesville Saturday was Captain and Mrs. W. R. Denham of Bainbridge, Ga., who were passing through in the former's private car from Brooksville, where they had been on a brief visit to relatives and friends.

Captain Denham, who is one of the most widely known and most popular railroad officials in the country, former general superintendent of the Atlantic Coast Line, is now general manager of the Georgia, Alabama and Florida railroad, with headquarters in Bainbridge. This is a new road, now being extended to Cuthbert, Ga., with an ultimate terminus at Atlanta, from Cornbelle, this State.

Captain and Mrs. Denham remained over here about half an hour, and were greeted by many of their old friends, all of whom were delighted to see them.

The enrollment has now reached 485, which means that it will pass the 500 mark after the holidays.

Frank Treadwell is a new addition to the freshman class this week, and has already won for himself a good name both with his teachers and class mates.

The following new books have been added to the library this week, for which thanks are tendered to the generous donors: "With Columbus in America," presented by Sam Mixson; "Maori and Settler" and "The Scalp Hunters," presented by Fred Hampton.

Rosabel Pedrick delighted the school Friday morning at chapel with another sweet song.

The little tots in the primary grade are busy now at odd moments in preparing their Christmas surprises for their parents.

Miss Mabel is happy. Her little folks took the prize for best exhibition of first grade number work at the Tampa Fair.

There was quite a surprise Monday morning at chapel when the Demosthenean Society asked the privilege of the stage and their spokesman, Miss Evelyn Collins, in a pretty and well-delivered speech announced the election of the principal and Miss Trotter to honorary membership, and presented them with solid society pins.

### In Praise of Chamberlain's Cough Remedy.

There is no other medicine manufactured that has received so much praise and so many expressions of gratitude as Chamberlain's Cough Remedy. It is effective, and prompt relief follows its use. Grateful parents everywhere do not hesitate to testify to its merits for the benefit of others. It is a certain cure for croupe and will prevent the attack if given at the first appearance of the disease. It is especially adapted to children, as it is pleasant to take and contains nothing injurious. Mrs. E. A. Humphreys, a well known resident and clerk in the store of Mr. E. Lock, of Alice, Cape Colony, South Africa, says: "I have used Chamberlain's Cough Remedy to ward off croupe and colds in my family. I found it to be very satisfactory and it gives me pleasure to recommend it." For sale by all druggists.

Prof. F. H. Ellis of Santa Fe was in the city Friday, and made The Sun an agreeable call. Prof. Ellis was for several months employed as a member of the faculty of a business college in Pensacola, but has been residing in Selma, Ala., for the past year. He has returned to Alachua county, however, and will make his future home with his father, Rev V. H. Ellis, at Santa Fe.

The Passion Play, or the Life and Passions of Our Saviour, has been acted by the peasants of the little town of Ober-Ammergau ever since the year 1635. It is acted only once in every ten years. A fatal plague swept over Germany early in the Seventeenth century and the villagers of Ober-Ammergau made a vow to God if He would spare their village from the plague that as an act of devotion they would produce the life and passions of our Saviour. Their little town was spared and ever since then they have faithfully kept their vow. Many attempts have been made to obtain pictures of the play, but all have been refused as they deemed it sacreligious to allow pictures to be made of their devotional presentation. Finally, last year they were desirous of building a hospital for the sick and aged. To raise funds they accepted the offer made by Pattie of Paris, who paid them $25,000 for the privilege of taking a series of moving pictures of the Passion Play. These are the only original moving pictures and are the ones that will be shown Tuesday, Dec. 18, at the opera house by Al Snyder's Imperial Entertainers. There will undoubtedly be a crowded house. To be sure of your seat buy a reserved one at Vidal's.

### Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

### THE PUBLIC LIBRARY.

**Many Excellent Books Have Been Added to That Institution Recently.**

The following books—the very latest and best fiction—were added to the Public Library. Another large order will be added in a few days.

"The Charlatons," by Bert Leston Taylor. Deliciously funny and altogether charming.

"Jewell Weed," by Alice Winter, a powerful and touching problem novel; scene located in the great North West

"The Doctor," by Ralph Connor. A tale of Rockies full of stirring incident, humor and pathos.

"The Undertow," by Robert E. Knowles. A story of transcendent interest of the struggle of great soul and its final triumph, told with fervor and pathos, with the sympathy that helps, not the scorn that schorches. The theme is a big one, and handled with masterly skill. A great book.

"A Son of the People," by the Baroness Orezy, a romance of the Hungarian plains of intense dramatic interest.

"White Fang," by Jack London—one of the most thrilling and dramatic stories of this popular author—beautifully illustrated in colors.

## HELP THE GIRLS.

Many of the club women, especially in Chicago, are waging a relentless war on the "down-town hotels." The Chicago chief of police detailed two detectives to shadow a certain department store in the great city. In less than a week's time over sixty girls—not alone—were traced from that store to a down-town hotel. Surely, this is a travesty on our advanced and boasted civilization. While nothing atones for crime, yet it cannot be considered separate and apart from the mitigating facts. These modern sociologists would do well to study some other phases. Thousands of these girls are homless and are no more than drift gathered at the great common centers of swirling social currents. Face to face with the bread problem, which can never be less than extremely serious, and at the same time in the grip of a furious commercial age that does not hesitate to barter destiny for gold, they enter upon employment if only it promises a meager garment and a crust of bread. If these social enthusiasts would save the girls let them solve the question back of all crime—the question that stares these wandering waifs in the face both by day and by night. You can't force tracts on a starving person. If you would save a drifting soul, feed it. That's the first thing—and a man whose hunger is satisfied is half saved. These poor Chicago girls—and thousands everywhere for that matter—are toiling through the long hours for rich corporations and getting the princely sum of from $5 to $8 per week, of which they have to spend $3 to $4 for a fireless and cheerless room. That question is like a ghost—whence the food and raiment? These very girls were not allowed, even in their purest day, their rightful social equality—they have always been the drift of congested social centers. There's no shelter from the raging storm—mother's dead and long ago father drifted away, God knows where. Before you condemn these girls—before you drag them through the streets in open shame (and will God forgive this world for being so quick to do a thing like that) —you stand close up to their side and lift your eye up on the same vision they've caught all these years. Take a look with them at their future—as homeless as the tribe of the desert and over whose heads there hangs a starless sky.

## SERMONETTES

We may be allowed here and now to quote a passage from our Blue Devil: "The world, despite all the science and ingenuity of men, is still afflicted with periodical plagues and distressing pests, but wonderful to relate, God and the devil are not responsible. Occasionally we have a period of seven-year locusts, shooting stars, cholera and lightning rod agents. We are hardly over with them before war, smallpox and sewing machine agents make their appearance. Then comes the tornadoes, cyclones and book agents; then the aurora borealis, earthquakes, conflagrations, and life insurance agents devastate the country. Now we have an epidemic of tuberculosis, appendicitis, and penny savings bank agents. This is to say nothing of the greatest of all pests—the get-rich-quick schemes, oil wells, gold mines, investment companies, and other transparent humbugs too vaporous to deceive a hungry hound. They are baited just enough to make life miserable and rob the counter-hopper of the weekly stipend."

Look at the beautiful raindrop as it lingers on your hand! Place a powerful microscope over that tiny drop. You will discover in it the restlessness of a shoreless sea. Every particle is in perpetual motion. The ebb and flow of the tides are there. Now the waves dash wildly toward the shore—now, leaping high, they chase each other outward on the deep. And a still deeper look reveals countless organisms floating in its fathomless bosom. That tiny raindrop—a great ocean in miniature. And what of the tear that distills itself in the lashes of those deep brown eyes! Here's another image of a wide, wide sea—the sea of life. Every passing shadow loses itself in the light that turns the tear to diamonds. And that tear—as in the silent depths of the bosom the tides come and go—the waves dash inward and outward along these shores. Oh, if we only knew the history of a tear! Whence came they and why do they linger so long? Do they always hail from the stormy zones, or do they linger just to dissolve away into a thousand rainbow tints?

Some things are so full of mystery—so utterly inexplainable. Why should every sweet have its bitter—every rose its thorn? Can you tell why it is that our highest bliss finds its counter-part in some hideous form of grief? While we enjoy the glorious light of the sun that same orb turns its dark side to worlds that swing in the far-off places. We may even cry while we laugh. And some of us weep over the years when loved ones pillowed their heads trustingly over our heart while the love-light danced in their upturned faces. Oh those hours—their faded bliss, their vanished joy! And now the memory of them is like a thousand thorns in the heart. As the years drag on we come to know that the hours of secret, sacred, and unfathomed love cast their own deepening shadows. It's so strange—yet, if the sun shines at all the sweetest flower will cast its shadow. The thing that breaks the heart, though, is that sometimes we shiver while crossing the deep dark valleys alone. To feel for a hand in the midnight gloam—and to find none—is worse than death. The valley is a heaven if by your side walks a brave, confiding spirit whose whisperings bring hope and whose touch sends fresh blood throbbing through the veins. Many a poor pilgrim, for the want of it, writes a history in sighs and sobs. True, he smiles—but it is only a cover for unspoken grief—unuttered because unutterable.

The Pensacola Journal voices the sentiment of the entire press of Florida in the following: "Wallace Stovall of The Tampa Tribune has the sympathy of his brethren of the press in the death of his sister a few days ago in Kentucky. His tribute to her memory in Tuesday's Tribune was a beautiful eulogy on her life and character."

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## NO COTTON MONEY GIVEN.

**Appropriation To Be Used for Broadening Market Beaten.**

Washington, Dec. 15—Representative Livingston made a forceful and strongly convincing speech before the house urging that the appropriation of $200,000 formerly paid for securing the work of experts abroad to push foreign trade in cotton, be replaced on the appropriation bill.

By a strict party vote the measure was defeated by seven votes, all of the republicans present voting against the bill except five, their action being provoked by the remarks of several of the speakers who followed Colonel Livingston.

An amendment providing that $30,000 be set apart for developing the foreign trade of American manufactured products was adopted. The cotton trade will, of course, be indirectly affected by this, but Colonel Livingston will seek to have a bill appropriating an additional $20,000 introduced in the senate, this to be devoted exclusively to the cotton trade. This will bring the amount up to the $50,000 formerly appropriated.

Colonel Livingston is a member of the house appropriations committee, and declares he will vigorously push the matter until the appropriation is secured.

### Would Divorce Uncle-Husband.

Atlanta, Dec. 15.—Alleging that she was married to a man who was her uncle, whom she had wed to hide her downfall, Mrs. Lelia Knight on Thursday brought action for an annulment of her marriage to G. E. Knight. Mrs. Knight, with her child, lives on Kennedy street. Mrs. Knight declares that she was thirteen years old when her uncle visited her father. He paid attention to her, and accomplished her downfall. Fearful of the consequences if the situation should become known to her family, she eloped with him. She says that she lived with Knight for 10 years, he having threatened her with death if she ever told. Then, in the fall of 1905, while they were living in Jonesboro, neighbors having learned that they were not man and wife, they got a license and were married. They lived together then, continues Mrs. Knight, until September last, when she left him on account ow habitual drunkenness, and his threats to take her life. She now seeks an annulment on the ground that the law prohibits marriage between uncle and niece.

### Uphold Act of 1902.

London, Dec. 15.—The house of lords has reversed the decision of the appeal court in the West Riding case regarding the paying of religious instruction and holds that the county councils are bound to pay for the whole curricum, religious as well as secular. The law lords thus uphold the original interpretation of the act of 1902 under which the "passive resisters" headed by Dr. Clifford were fined and imprisoned. Had the decision been otherwise, the levy of rates for the payment of religious instruction would have been illegal, and the non-conformists would have gained one of the main points for which the president of the board of education, Mr. Birrell, is fighting, with the education bill and would thus have made them more or less indifferent to the fate of the educational measure.

## NO COTTON MONEY GIVEN.

**Appropriation To Be Used for Broadening Market Beaten.**

Washington, Dec. 15—Representative Livingston made a forceful and strongly convincing speech before the house urging that the appropriation of $200,000 formerly paid for securing the work of experts abroad to push foreign trade in cotton, be replaced on the appropriation bill.

By a strict party vote the measure was defeated by seven votes, all of the republicans present voting against the bill except five, their action being provoked by the remarks of several of the speakers who followed Colonel Livingston.

An amendment providing that $30,000 be set apart for developing the foreign trade of American manufactured products was adopted. The cotton trade will, of course, be indirectly affected by this, but Colonel Livingston will seek to have a bill appropriating an additional $20,000 introduced in the senate, this to be devoted exclusively to the cotton trade. This will bring the amount up to the $50,000 formerly appropriated.

Colonel Livingston is a member of the house appropriations committee, and declares he will vigorously push the matter until the appropriation is secured.

### Would Divorce Uncle-Husband.

Atlanta, Dec. 15.—Alleging that she was married to a man who was her uncle, whom she had wed to hide her downfall, Mrs. Lelia Knight on Thursday brought action for an annulment of her marriage to G. E. Knight. Mrs. Knight, with her child, lives on Kennedy street. Mrs. Knight declares that she was thirteen years old when her uncle visited her father. He paid attention to her, and accomplished her downfall. Fearful of the consequences if the situation should become known to her family, she eloped with him. She says that she lived with Knight for 10 years, he having threatened her with death if she ever told. Then, in the fall of 1905, while they were living in Jonesboro, neighbors having learned that they were not man and wife, they got a license and were married. They lived together then, continues Mrs. Knight, until September last, when she left him on account ow habitual drunkenness, and his threats to take her life. She now seeks an annulment on the ground that the law prohibits marriage between uncle and niece.

### Uphold Act of 1902.

London, Dec. 15.—The house of lords has reversed the decision of the appeal court in the West Riding case regarding the paying of religious instruction and holds that the county councils are bound to pay for the whole curricum, religious as well as secular. The law lords thus uphold the original interpretation of the act of 1902 under which the "passive resisters" headed by Dr. Clifford were fined and imprisoned. Had the decision been otherwise, the levy of rates for the payment of religious instruction would have been illegal, and the non-conformists would have gained one of the main points for which the president of the board of education, Mr. Birrell, is fighting, with the education bill and would thus have made them more or less indifferent to the fate of the educational measure.

### THE PUBLIC LIBRARY.

**Many Excellent Books Have Been Added to That Institution Recently.**

The following books—the very latest and best fiction—were added to the Public Library. Another large order will be added in a few days.

"Blindfold," by Earle Ashley Walcott—the great hit of the season—a book of absorbing interest, teeming with excitement and suspense.

"Coniston," by Winston Churchill. Pronounced by best English critics "a distinct triumph, superb—one of the strongest and best novels of the year."

"Saul of Tarsus," by Elezabeth Miller, pronounced the most remarkable religious romance since Ben Hur.

"The Charlatons," by Bert Leston Taylor. Deliciously funny and altogether charming.

"Jewell Weed," by Alice Winter, a powerful and touching problem novel; scene located in the great North West.

"The Doctor," by Ralph Connor. A tale of Rockies full of stirring incident, humor and pathos.

"The Undertow," by Robert E. Knowles. A story of transcendent interest of the struggle of great soul and its final triumph, told with fervor and pathos, with the sympathy that helps, not the scorn that schorches. The theme is a big one, and handled with masterly skill. A great book.

"A Son of the People," by the Baroness Orezy, a romance of the Hungarian plains of intense dramatic interest.

"White Fang," by Jack London—one of the most thrilling and dramatic stories of this popular author—beautifully illustrated in colors.

"The Bishop of Cottontown," by John Trotwood Moore—a sweet, powerful and beautiful story of the Southern cotton mills—a moving sermon against child-labor.

"A Spinner in The Sun," by Myrtle Reed. "Delightfully humorous, delightfully sane, delightfully cynical, delightfully spontaneous," is the way the critics describe Miss Reed. This last is by all odds her best book.

### A Miraculous Cure.

The following statement by H. M. Adams and wife, Henrietta, Pa., will interest parents and others. "A miraculous cure has taken place in our home. Our child had eczema 5 years and was pronounced incurable, when we read about Electric Bitters, and concluded to try it. Before the second bottle was all taken we noticed a change for the better, and after taking 7 bottles he was completely cured." It's the up-to-date blood medicine and body building tonic. Guaranteed. 50c and $1 at all drug stores.

### The Favorite Mabel Paige.

Mabel Paige is coming. These few words mean more to the theatre going people of this city than the entire advertising of the majority of companies.

This dainty and charming little star, who has become the idol of everyone with whom she has come in contact with, is to appear at the opera house for three nights with an entire new

line of plays which have been carefully selected by this clever little lady herself.

Last season Miss Paige appeared in the dainty comedy "At Cozy Corners," playing to high prices, but the strain of the one-night stands and early morning jumps were too much for her and she decided to return to popular prices, and no doubt will be greeted with a crowded house when she appears next Thursday night for a run of three nights and one matinee.

Cricket Prewitt is giving the people of Waldo a good paper in The News. The youngest editor in Florida" is by no means the poorest.

H. P. Trimble has sold his interest in The Fernandina Star and will retire as managing editor of the same. The boys generally regret to lose Mr. Trimble as a member of the fraternity.

A Texas prosecuting attorney had the father fined $5 for violation of the sidewalk ordinance and although his mind, no doubt, went back to his boyhood days, he refrained from saying: "It hurts me more than it does you."

A soldier serving in the Philippines was court-martialed for stealing a bar of soap valued at eight cents and sentenced to hard labor for six months. He made the mistake in not taking a whole box of soap. He then might have got a few days at hard labor.

Dr. Theop. West, Senator from Jackson county, will probably be a candidate for president of the Senate at its next session. He is held in high esteem in West Florida and the contest will no doubt be between him and Senator Hunt Harris of Key West.

Though a little late, The Sun congratulates Editor T. J. Appleyard of the Lake City Index upon his splendid race for "Democratic whip" of the National House of Representatives. He was defeated by a few votes through the personal "pull" of John Sharp Williams of Mississippi, leader of the Democrats in the House.

There is talk of Governor Broward convening the Legislature in extra session for the purpose of enacting laws for the relief of the deplorable lack of the railroads to provide transportation facilities. The people of Florida are losing immense sums daily owing to the failure of the railroads to carry the fruits, vegetables, phosphate, etc., to market, and the situation certainly requires action of some kind.

Filtering the air to be breathed in public school buildings is one of the latest experiments in St. Louis, and is said to result in greater mental alertness and activity in the pupils. The suggestion has been advanced that the text-books in use be filtered next, for the reason that mental activity is wasted in tackling the trash with which too many arithmetic and grammar publishers have flooded the country. There is no doubt real need for reform in many of the books now in the schools.

The excessive rate charged by the Gainesville Electric Light Company is compelling many of our business men to install other systems of lighting. In Fernandina, where the electric light plant is owned by the city, we are informed that the rate is eight cents per 1,000 kilowatts, whereas in Gainesville, where the plant is owned by a foreign corporation, the rate is fifteen cents. The people realized the great importance of relief from the electric light trust when they voted bonds for municipal ownership of a plant, but it appears that the present Board of Public Works is opposed to such ownership, for no steps have been taken by them looking to city ownership.

## HELP THE GIRLS.

Many of the club women, especially in Chicago, are waging a relentless war on the "down-town hotels." The Chicago chief of police detailed two detectives to shadow a certain department store in the great city. In less than a week's time over sixty girls—not alone—were traced from that store to a down-town hotel. Surely, this is a travesty on our advanced and boasted civilization. While nothing atones for crime, yet it cannot be considered separate and apart from the mitigating facts. These modern sociologists would do well to study some other phases. Thousands of these girls are homless and are no more than drift gathered at the great common centers of swirling social currents. Face to face with the bread problem, which can never be less than extremely serious, and at the same time in the grip of a furious commercial age that does not hesitate to barter destiny for gold, they enter upon employment if only it promises a meager garment and a crust of bread. If these social enthusiasts would save the girls let them solve the question back of all crime—the question that stares these wandering waifs in the face both by day and by night. You can't force tracts on a starving person. If you would save a drifting soul, feed it. That's the first thing—and a man whose hunger is satisfied is half saved. These poor Chicago girls—and thousands everywhere for that matter—are toiling through the long hours for rich corporations and getting the princely sum of from $5 to $8 per week, of which they have to spend $3 to $4 for a fireless and cheerless room. That question is like a ghost—whence the food and raiment? These very girls were not allowed, even in their purest day, their rightful social equality—they have always been the drift of congested social centers. There's no shelter from the raging storm—mother's dead and long ago father drifted away, God knows where. Before you condemn these girls—before you drag them through the streets in open shame (and will God forgive this world for being so quick to do a thing like that) —you stand close up to their side and lift your eye up on the same vision they've caught all these years. Take a look with them at their future—as homeless as the tribe of the desert and over whose heads there hangs a starless sky.

## SERMONETTES

We may be allowed here and now to quote a passage from our Blue Devil: "The world, despite all the science and ingenuity of men, is still afflicted with periodical plagues and distressing pests, but wonderful to relate, God and the devil are not responsible. Occasionally we have a period of seven-year locusts, shooting stars, cholera and lightning rod agents. We are hardly over with them before war, smallpox and sewing machine agents make their appearance. Then comes the tornadoes, cyclones and book agents; then the aurora borealis, earthquakes, conflagrations, and life insurance agents devastate the country. Now we have an epidemic of tuberculosis, appendicitis, and penny savings bank agents. This is to say nothing of the greatest of all pests—the get-rich-quick schemes, oil wells, gold mines, investment companies, and other transparent humbugs too vaporous to deceive a hungry hound. They are baited just enough to make life miserable and rob the counter-hopper of the weekly stipend."

Look at the beautiful raindrop as it lingers on your hand! Place a powerful microscope over that tiny drop. You will discover in it the restlessness of a shoreless sea. Every particle is in perpetual motion. The ebb and flow of the tides are there. Now the waves dash wildly toward the shore—now, leaping high, they chase each other outward on the deep. And a still deeper look reveals countless organisms floating in its fathomless bosom. That tiny raindrop—a great ocean in miniature. And what of the tear that distills itself in the lashes of those deep brown eyes! Here's another image of a wide, wide sea—the sea of life. Every passing shadow loses itself in the light that turns the tear to diamonds. And that tear—as in the silent depths of the bosom the tides come and go—the waves dash inward and outward along these shores. Oh, if we only knew the history of a tear! Whence came they and why do they linger so long? Do they always hail from the stormy zones, or do they linger just to dissolve away into a thousand rainbow tints?

Some things are so full of mystery—so utterly inexplainable. Why should every sweet have its bitter—every rose its thorn? Can you tell why it is that our highest bliss finds its counter-part in some hideous form of grief? While we enjoy the glorious light of the sun that same orb turns its dark side to worlds that swing in the far-off places. We may even cry while we laugh. And some of us weep over the years when loved ones pillowed their heads trustingly over our heart while the love-light danced in their upturned faces. Oh those hours—their faded bliss, their vanished joy! And now the memory of them is like a thousand thorns in the heart. As the years drag on we come to know that the hours of secret, sacred, and unfathomed love cast their own deepening shadows. It's so strange—yet, if the sun shines at all the sweetest flower will cast its shadow. The thing that breaks the heart, though, is that sometimes we shiver while crossing the deep dark valleys alone. To feel for a hand in the midnight gloam—and to find none—is worse than death. The valley is a heaven if by your side walks a brave, confiding spirit whose whisperings bring hope and whose touch sends fresh blood throbbing through the veins. Many a poor pilgrim, for the want of it, writes a history in sighs and sobs. True, he smiles—but it is only a covert for unspoken grief—unuttered because unutterable.

The Pensacola Journal voices the sentiment of the entire press of Florida in the following: "Wallace Stovall of The Tampa Tribune has the sympathy of his brethren of the press in the death of his sister a few days ago in Kentucky. His tribute to her memory in Tuesday's Tribune was a beautiful eulogy on her life and character."

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

In making his remmittance, Mr. Stevens says:

"You may have wondered why I let the last advertisement stand so long before changing copy. That is easy, because it was selling watches—and I thought I had better let a good thing stand. I know of seven watches sold on account of this ad., because the parties referred to the ad. when purchasing."

### THE EARNEST WORKERS.

Officers Elected for Coming Year—A Most Interesting Meeting Held.

One of the most interesting meetings in the history of the Earnest Workers of the Presbyterian church was held at the home of Mrs. Annie Brown on Wednesday afternoon, when the election of officers for the ensuing term was held, with the following result:

President, Mrs. H. H. McCreary; vice-president, Mrs. L. C. Lynch; treasurer, Mrs. J. A. McKinstry; secretary, Mrs. G. B. Tison.

The meeting every way was a most interesting one. It was well attended, and those present manifested a great deal of interest for the year past. The reports showed everything in fine condition, which was very gratifying to the membership.

At the conclusion of the business, Mrs. Brown served delicious refreshments of ambrosia and cake, which were very much enjoyed. In all, the meeting was a most delightful one, and will be long remembered by those present.

### WOMAN'S GUILD BAZAAR.

Recent Entertainment Was a Grand Success, Realizing Nearly $500.

The recent bazaar held by the Woman's Guild of Holy Trinity Church was proven as thorough a financial as artistic success. Reports from the chairmen of the various booths and committees have all been handed in, and show a clear profit of about $465. In addition there was one booth conducted by the young ladies of St. Elizabeth's Guild, which cleared over $30.

It is hoped that material for the completion of the new church will soon arrive and that the congregation will be worshipping in the building by spring.

An enthusiastic meeting of citizens Gainesville and the county who are erested in the organization of coun- stock show was held at the Council amber Friday night and the meet- was well attended, with consider- le interst manifested

The meeting was called to order by yor W.R. Thomas, who explained its rpose. There were talks by prom- nt people along the line of organ- ng a regular annual stock show, ich resulted in a motion, which was rried, that the chair appoint a com- ittee of seven to formulate plans of ganization and draft plans for suit- le buildings, etc., for the show, hich is proposed to make an annual traction The chairman will make appointments in a day or two.

## CARD FROM MRS. PALMER.

e Extends Thanks to the Ladies Who Sent Exhibits to the Fair.

To the Ladies: I desire through the olumns of The Sun to thank the la- ies of the county for their interest nd efforts to make the exhibit of oman's work a success at the late tate Fair.

Realizing the fact that many of he ladies of the county did not attend he fair, yet have an abiding interest n it, and are desirous of knowing how our work compared with the exhibits of our sisters of the other counties of the State, I assure all who contributed to our success at the fair, that you may justly feel proud.

It is true that there was on exhibi- tion from other counties meritorious work of the ladies. Had there not been, our victory would be a victory of less lustre.

From the many premiums received by the ladies of Alachua county, espe- cially of Gainesville, we may fairly conclude that the judges of woman's work at the fair recognized your su- perior work and the merit of the exhibits; and permit me to say to any and all who were not awarded pre- miums, that your work was certainly worthy of a place there, and was greatly admired by the many, of whom a large percentage were competent to judge of the excellence of the handi- work of the women of our fair Florida.

I heartily congratulate, and am indeed thankful for the effort on the part of the ladies of Alachua county, in mak- ing so creditable a display, which assured our success. Respectfully.

MRS. W. H. PALMER.

## Captain Denham Here.

Among the prominent visitors to Gainesville Saturday was Captain and Mrs. W. B. Denham of Bainbridge, Ga., who were passing through in the former's private car from Brooksville, where they had been on a brief visit to relatives and friends.

Captain Denham, who is one of the most widely known and most popular railroad officials in the country, former general superintendent of the Atlan- tic Coast Line, is now general man- ager of the Georgia, Alabama and Florida railroad, with headquarters in Bainbridge. This is a new road, now being extended to Cuthbert, Ga., with an ultimate terminus at Atlanta, from Carrabelle, this State.

Captain and Mrs. Denham remained over here about half an hour, and were greeted by many of their old friends, all of whom were delighted to see them.

## SCHOOL NOTES.

(By the Sun's Special Reporter)

The enrollment has now reached 485, which means that it will pass the 500 mark after the holidays.

Frank Treadwell is a new addition to the freshman class this week, and has already won for himself a good name both with his teachers and class mates.

The following new books have been added to the library this week, for which thanks are tendered to the gen- erous donors: "With Columbus in America," presented by Sam Mixson; "Maori and Settler" and "The Scalp Hunters," presented by Fred Hamp- ton.

Rosabel Pedrick delighted the school Friday morning at chapel with an- other sweet song.

The little tots in the primary grade are busy now at odd moments in pre- paring their Christmas surprises for their parents.

Miss Mabel is happy. Her little folks took the prize for best exhibition of first grade number work at the Tampa Fair.

There was quite a surprise Monday morning at chapel when the Demos- thenean Society asked the privilege of the stage and their spokesman, Miss Evelyn Collins, in a pretty and well- delivered speech announced the elec- tion of the principal and Miss Trotter to honorary membership, and pre- sented them with solid society pins.

### In Praise of Chamberlain's Cough Remedy.

There is no other medicine manu- factured that has received so much praise and so many expressions of gratitude as Chamberlain's Cough Remedy. It is effective, and prompt relief follows its use. Grateful par ents everywhere do not hesitate to testify to its merits for the benefit of others. It is a certain cure for croup and will prevent the attack if given at the first appearance of the disease. It is especially adapted to children, as it is pleasant to take and contains nothing injurious. Mrs. E. A. Humphreys, a well known resident and clerk in the store of Mr. E. Lock, of Alice, Cape Colony, South Africa, says: "I have used Chamberlain's Cough Remedy to ward off croup and colds in my family. I found it to be very satisfactory and it gives me pleasure to recommend it." For sale by all druggists.

### Democrats Should Centralize Power.

New York, Dec. 15.—Edward M. Sheppard at a meeting of the Brook- lyn Democratic club declared that the democratic party should accept the is- sue of centralization of power in the federal government made by Secretary Root in his address on Wednesday night.

## NEWS OF CITY AND COUNTY CONDENSED

J. W. Hawkins of Marion, S. C., has arrived in the city. Mr. Hawkins is very much pleased with Gainesville and may decide to locate here.

Christmas Holiday Rates Via At- lantic Coast Line to All Points—See the nearest railroad agent. Remem- ber that the round trip is one fare and one-third plus 25 cents. If you want Pullman reservation, schedule or other definite information write to Frank C. Boylston, District Passenger Agent, Atlantic Coast Line, Jacksonville, Fla.

Prof. F. H. Ellis of Santa Fe was in the city Friday, and made The Sun an agreeable call. Prof. Ellis was for several months employed as a member of the faculty of a business college in Pensacola, but has been residing in Selma, Ala., for the past year. He has returned to Alachua county, however, and will make his future home with his father, Rev V. H. Ellis, at Santa Fe.

The Passion Play, or the Life and Passions of Our Saviour, has been acted by the peasants of the little town of Ober-Ammergau ever since the year 1635. It is acted only once in every ten years. A fatal plague swept over Germany early in the Seventeenth century and the villagers of Ober-Am- mergau made a vow to God if He would spare their village from the plague that as an act of devotion they would produce the life and passions of our Saviour. Their little town was spared and ever since then they have faith- fully kept their vow. Many attempts have been made to obtain pictures of the play, but all have been refused as they deemed it sacreligious to allow pictures to be made of their devotion- al presentation. Finally, last year they were desirous of building a hos- pital for the sick and aged. To raise funds they accepted the offer made by Pattie of Paris, who paid them $25,000 for the privilege of taking a series of moving pictures of the Passion Play. These are the only original moving pictures and are the ones that will be shown Tuesday, Dec. 18, at the opera house by Al Snyder's Imperial Enter- tainers. There will undoubtedly be a crowded house. To be sure of your seat buy a reserved one at Vidal's.

### Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were con- sidered hopeless. Mrs. Adolph Buess- ing, 701 West Third St., Davenport, Iowa, writes: "A severe cold con- tracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recom- mended and one fifty-cent bottle en- tirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

### Farewell to Royal Travellers.

London, Dec. 15.—King Haakon, Queen Maud, and Crown Prince Olaf, of Norway, left London Friday morn- ing for Germany. ### THE PUBLIC LIBRARY.

**Many Excellent Books Have Been Added to That Institution Recently.**

The following books—the very latest and best fiction—were added to the Public Library. Another large order will be added in a few days.

"Blindfold," by Earle Ashley Walcott—the great hit of the season—a book of absorbing interest, teeming with excitement and suspense.

"Coniston," by Winston Churchill. Pronounced by best English critics "a distinct triumph, superb—one of the strongest and best novels of the year."

"Saul of Tarsus," by Elezabeth Miller, pronounced the most remarkable religious romance since Ben Hur.

"The Charlatons," by Bert Leston Taylor. Deliciously funny and altogether charming.

"Jewell Weed," by Alice Winter, a powerful and touching problem novel; scene located in the great North West.

"The Doctor," by Ralph Connor. A tale of Rockies full of stirring incident, humor and pathos.

"The Undertow," by Robert E. Knowles. A story of transcendent interest of the struggle of great soul and its final triumph, told with fervor and pathos, with the sympathy that helps, not the scorn that scborches. The theme is a big one, and handled with masterly skill. A great book.

"A Son of the People," by the Baroness Orezy, a romance of the Hungarian plains of intense dramatic interest.

"White Fang," by Jack London—one of the most thrilling and dramatic stories of this popular author—beautifully illustrated in colors.

"The Bishop of Cottontown," by John Trotwood Moore—a sweet, powerful and beautiful story of the Southern cotton mills—a moving sermon against child-labor.

"A Spinner in The Sun," by Myrtle Reed. "Delightfully humorous, delightfully sane, delightfully cynical, delightfully spontaneous," is the way the critics describe Miss Reed. This last is by all odds her best book.

### A Miraculous Cure.

The following statement by H. M. Adams and wife, Henrietta, Pa., will interest parents and others. "A miraculous cure has taken place in our home. Our child had eczema 5 years and was pronounced incurable, when we read about Electric Bitters, and concluded to try it. Before the second bottle was all taken we noticed a change for the better, and after taking 7 bottles he was completely cured." It's the up-to-date blood medicine and body building tonic. Guaranteed. 50c and $1 at all drug stores.

### The Favorite Mabel Paige.

Mabel Paige is coming. These few words mean more to the theatre going people of this city than the entire advertising of the majority of companies.

This dainty and charming little star, who has become the idol of everyone with whom she has come in contact with, is to appear at the opera house for three nights with an entire new

line of plays which have been carefully selected by this clever little lady herself.

Last season Miss Paige appeared in the dainty comedy "At Cozy Corner," playing to high prices, but the strain of the one-night stands and early morning jumps were too much for her and she decided to return to popular prices, and no doubt will be greeted with a crowded house when she appears next Thursday night for a run of three nights and one matinee.

## HELP THE GIRLS.

Many of the club women, especially in Chicago, are waging a relentless war on the "down-town hotels." The Chicago chief of police detailed two detectives to shadow a certain department store in the great city. In less than a week's time over sixty girls—not alone—were traced from that store to a down-town hotel. Surely, this is a travesty on our advanced and boasted civilization. While nothing atones for crime, yet it cannot be considered separate and apart from the mitigating facts. These modern sociologists would do well to study some other phases. Thousands of these girls are homless and are no more than drift gathered at the great common centers of swirling social currents. Face to face with the bread problem, which can never be less than extremely serious, and at the same time in the grip of a furious commercial age that does not hesitate to barter destiny for gold, they enter upon employment if only it promises a meager garment and a crust of bread. If these social enthusiasts would save the girls let them solve the question back of all crime—the question that stares these wandering waifs in the face both by day and by night. You can't force tracts on a starving person. If you would save a drifting soul, feed it. That's the first thing—and a man whose hunger is satisfied is half saved. These poor Chicago girls—and thousands everywhere for that matter—are toiling through the long hours for rich corporations and getting the princely sum of from $5 to $8 per week, of which they have to spend $3 to $4 for a fireless and cheerless room. That question is like a ghost—whence the food and raiment? These very girls were not allowed, even in their purest day, their rightful social equality—they have always been the drift of congested social centers. There's no shelter from the raging storm—mother's dead and long ago father drifted away, God knows where. Before you condemn these girls—before you drag them through the streets in open shame (and will God forgive this world for being so quick to do a thing like that)—you stand close up to their side and lift your eye up on the same vision they've caught all these years. Take a look with them at their future—as homeless as the tribe of the desert and over whose heads there hangs a starless sky.

## SERMONETTES

We may be allowed here and now to quote a passage from our Blue Devil: "The world, despite all the science and ingenuity of men, is still afflicted with periodical plagues and distressing pests, but wonderful to relate, God and the devil are not responsible. Occasionally we have a period of seven-year locusts, shooting stars, cholera and lightning rod agents. We are hardly over with them before war, smallpox and sewing machine agents make their appearance. Then comes the tornadoes, cyclones and book agents; then the aurora borealis, earthquakes, conflagrations, and life insurance agents devastate the country. Now we have an epidemic of tuberculosis, appendicitis, and penny savings bank agents. This is to say nothing of the greatest of all pests—the get-rich-quick schemes, oil wells, gold mines, investment companies, and other transparent humbugs too vaporous to deceive a hungry hound. They are baited just enough to make life miserable and rob the counter-hopper of the weekly stipend."

Look at the beautiful raindrop as it lingers on your hand! Place a powerful microscope over that tiny drop. You will discover in it the restlessness of a shoreless sea. Every particle is in perpetual motion. The ebb and flow of the tides are there. Now the waves dash wildly toward the shore—now, leaping high, they chase each other outward on the deep. And a still deeper look reveals countless organisms floating in its fathomless bosom. That tiny raindrop—a great ocean in miniature. And what of the tear that distills itself in the lashes of those deep brown eyes! Here's another image of a wide, wide sea—the sea of life. Every passing shadow loses itself in the light that turns the tear to diamonds. And that tear—as in the silent depths of the bosom the tides come and go—the waves dash inward and outward along these shores. Oh, if we only knew the history of a tear! Whence came they and why do they linger so long? Do they always hail from the stormy zones, or do they linger just to dissolve away into a thousand rainbow tints?

Some things are so full of mystery—so utterly inexplainable. Why should every sweet have its bitter—every rose its thorn? Can you tell why it is that our highest bliss finds its counter-part in some hideous form of grief? While we enjoy the glorious light of the sun that same orb turns its dark side to worlds that swing in the far-off places. We may even cry while we laugh. And some of us weep over the years when loved ones pillowed their heads trustingly over our heart while the love-light danced in their upturned faces. Oh those hours—their faded bliss, their vanished joy! And now the memory of them is like a thousand thorns in the heart. As the years drag on we come to know that the hours of secret, sacred, and unfathomed love cast their own deepening shadows. It's so strange—yet, if the sun shines at all the sweetest flower will cast its shadow. The thing that breaks the heart, though, is that sometimes we shiver while crossing the deep dark valleys alone. To feel for a hand in the midnight gloam—and to find none—is worse than death. The valley is a heaven if by your side walks a brave, confiding spirit whose whisperings bring hope and whose touch sends fresh blood throbbing through the veins. Many a poor pilgrim, for the want of it, writes a history in sighs and sobs. True, he smiles—but it is only a covert for unspoken grief—unuttered because unutterable.

The Pensacola Journal voices the sentiment of the entire press of Florida in the following: "Wallace Stovall of The Tampa Tribune has the sympathy of his brethren of the press in the death of his sister a few days ago in Kentucky. His tribute to her memory in Tuesday's Tribune was a beautiful eulogy on her life and character."

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## NO COTTON MONEY GIVEN.

**Appropriation To Be Used for Broadening Market Beaten.**

Washington, Dec. 15—Representative Livingston made a forceful and strongly convincing speech before the house urging that the appropriation of $200,000 formerly paid for securing the work of experts abroad to push foreign trade in cotton, be replaced on the appropriation bill.

By a strict party vote the measure was defeated by seven votes, all of the republicans present voting against the bill except five, their action being provoked by the remarks of several of the speakers who followed Colonel Livingston.

An amendment providing that $30,000 be set apart for developing the foreign trade of American manufactured products was adopted. The cotton trade will, of course, be indirectly affected by this, but Colonel Livingston will seek to have a bill appropriating an additional $20,000 introduced in the senate, this to be devoted exclusively to the cotton trade. This will bring the amount up to the $50,000 formerly appropriated.

Colonel Livingston is a member of the house appropriations committee, and declares he will vigorously push the matter until the appropriation is secured.

### Freight Steamer Ashore.

New York, Dec. 15.—While bound from Trieste, Austria, via Bermuda, to New York, the Austrian freight steamer Clara went ashore at the head of Barngat bay, on the Jersey coast early Friday. A line was shot over the ship and a breeches buoy hauled off those on board the Clara. A wrecking tug was dispatched from this city to pull the steamer off.

Patrick came to an end after the hardest fought battle in the criminal records of the country. It now remains to apply to Governor Higgins for a commutation of sentence to life imprisonment.

### Long Tennessee Fight.

For twenty years W. L. Rawls of Bells, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Arnica Salve to the sore surface; this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at all druggists'.

### Negro Jehu Gets Six Years.

Pittsburg, Pa., Dec. 15.—Clifford Hooe, the negro coachman convicted of perjury as a result of a sensational statement made before the trial of the Hartje case, was refused a new trial. Judge Fraser sentenced him to pay a fine of $50 and undergo an imprisonment of six years in the western penitentiary.

### New Cure for Epilepsy.

J. B. Waterman of Watertowe, O., Rural Free Delivery, writes: "My daughter, afflicted for years with epilepsy, was cured by Dr. King's New Life Pills. She has not had an attack for over two years." Best body cleaners and life giving tonic on earth. 25c at all drug stores.

### Would Divorce Uncle-Husband.

Atlanta, Dec. 15.—Alleging that she was married to a man who was her uncle, whom she had wed to hide her downfall, Mrs. Lelia Knight on Thursday brought action for an annulment of her marriage to G. E. Knight. Mrs. Knight, with her child, lives on Kennedy street. Mrs. Knight declares that she was thirteen years old when her uncle visited her father. He paid attention to her, and accomplished her downfall. Fearful of the consequences if the situation should become known to her family, she eloped with him. She says that she lived with Knight for 10 years, he having threatened her with death if she ever told. Then, in the fall of 1905, while they were living in Jonesboro, neighbors having learned that they were not man and wife, they got a license and were married. They lived together then, continues Mrs. Knight, until September last, when she left him on account ow habitual drunkenness, and his threats to take her life. She now seeks an annulment on the ground that the law prohibits marriage between uncle and niece.

### Uphold Act of 1902.

London, Dec. 15.—The house of lords has reversed the decision of the appeal court in the West Riding case regarding the paying of religious instruction and holds that the county councils are bound to pay for the whole curricum, religious as well as secular. The law lords thus uphold the original interpretation of the act of 1902 under which the "passive resisters" headed by Dr. Clifford were fined and imprisoned. Had the decision been otherwise, the levy of rates for the payment of religious instruction would have been illegal, and the non-conformists would have gained one of the main points for which the president of the board of education, Mr. Birrell, is fighting, with the education bill and would thus have made them more or less indifferent to the fate of the educational measure.
